RENO, WASHOE COUNTY, NEVADA. TUESDAY, JUNE 3, 1880.

NO. 5.

POTATOES.

**How to Boil Them Properly—The Way to Wash Them Well.**

There are two ways of boiling potatoes—both are good. The first fashion is to put them into well salted water; having let them boil until they are nearly done, pour off nearly all the water, set them back on the fire, cover, and let them steam until thoroughly done. Take off the cover, and let them stay a moment or two to evaporate the moisture. The other way is to drop the potatoes into enough boiling water to cover them, and as soon as they are done pour off the water entirely and put back on the range to evaporate the moisture; put the cover on the kettle so that about a quarter of the mouth is left open to the air. When

BOILED IN THEIR SKINS

a tiny piece should be cut from the end of each potato. They must boil from thirty to thirty-five minutes. Always select potatoes as nearly of a size as possible. New potatoes with delicate skins should not be pared for boiling. Take a sharp, thin knife and scrape off the skins. In the country, new potatoes just brought in from the garden do not even need scraping; a few smart turns with a rough-textured cloth take off the fine skin in a twinkling. But the dwellers in towns don't get these ideal potatoes.

FOR PERFECT MASHED POTATOES, pare and boil them as above, and after every trace of the water has evaporated, mash them with your pestle still in the kettle over the fire; they are naught if not kept hot. Get out every suggestion of a lump and as you mash put in a generous quantity of fresh butter, and, if you have it, some cream—if not cream, enough milk to make the potato rich and moist. Salt it to taste, and serve fresh and hot piled up and smoothed over in a hot dish with a little black pepper sifted on the top. Mashed potato which have stood on the stove awhile before serving is poor stuff. If you want the top brown hold over it a salamander or a very hot stove lid—don't put the dish into the oven, that only makes the contents watery.

CRACK SHOTS.

The Remarkable Shooting of Dr. Ruth and His Wife.

From the Sacramento Bee.

Dr. and Mrs. Ruth gave an exhibition of their remarkable skill with the rifle and pistol at Agricultural Park yesterday. The day was not a propitious one, the north wind blowing quite a gale, raising the dust in such clouds that at times it was difficult for them to see what they were about. Glass balls were held by the Doctor on the point of a short pencil while Mrs. Ruth broke them with rifle and pistol, holding the weapons sideways, bottom-side-up, over her shoulder (using a small mirror), etc. The Doctor then did the same. Mrs. Ruth holding the little globes for him. The most remarkable shooting done by him was when he completely obscured the sights of his weapons by placing cards over the muzzles. In this way he broke balls held by hand or thrown into the air as accurately as when using the sights. The weapons used were a Winchester, a Ballard rifle and a 10-inch pistol. The Dr. shot a hole through a small card held by Mrs. Ruth between her teeth, and she did the same for him. Mrs. Ruth is beyond doubt the champion lady-shot of the world, and will create a sensation in the East and Europe. They left to-day for Salt Lake, where they will exhibit and then continue their travels.

Horsemen Attention.

The undersigned has opened a Breaking and Training Stable at the Fair grounds, when he will be prepared to handle Trotting horses, having a long experience in the East and highly recommended on this coast and known to many horsemen here, having won four races with one stable of horses at the fair here last fall. Satisfaction guaranteed and charges reasonable. Mr. J. TERNERY.

Reno, April 1st, 1880.—Tf.

Four doses of Mrs. Dr. Howe's celebrated rheumatism medicine will relieve the most intense pain. One bottle or more will cure Sold by all druggists. Jan 26-1880

Watch, clock, and jewelry repaired in workmanlike style, at the lowest prices, DeBell's. April 20

No one need suffer with neuralgia or toothache. A few drops of Mrs. Dr. Howe's celebrated toothache medicine will instantly stop the pain and save the tooth. Jan 26-1880

THE CARSON TIMES.

THE FIRST NUMBER OF THE CARSON TIMES, a daily newspaper, will be issued on or about March 15th.

It will not be as large as its London namesake, but will contain the cream of all the news from the gold fields.

While bright and readable, it will not be racy with scandal and the affairs of private individuals.

A newspaper strictly, not a compendium of gossip or a vehicle for personalities.

Mailed to any address and distributed by carrier in Carson and Reno.

Fifteen Cents per Week.

Fifty Cents per Month.

The paper will arrive in Reno daily, (except Monday) at 11 A.M. Leave subscriptions with S. M. Jamison, agent, who will deliver to any part of the State.

### TELEGRAPHIC DISPATCHES

The *Gazette* will hereafter contain all important press news which comes over the wires up to 4 o'clock P. M. It is due to the Western Union telegraph company to say that they have made a liberal contract with us. If the people of Reno and Washoe county manifest any appreciation of our efforts to give them a good paper, we will continue the dispatches, and increase them as fast as we are justified in doing. We await your answer.

### THE NATIONAL CONVENTION.

The Chicago Convention has not yet accomplished much. It met this morning and after a short session adjourned again until 5 o'clock. Today's dispatches throw little light on the situation. There is evidently a close contest going on for the control of votes. A great deal of work has been given the various committees and much acrimonious debate will probably follow the presentation of their reports to the Convention. There are a number of important points to be decided by the Convention before any balloting on the names of Presidential candidates can be done. Upon the settlement of these preliminaries the nomination of a candidate will to a great degree depend.

The unit rule has yet to be adopted or rejected by the Convention. The chances are that it will be rejected. Its rejection would probably be fatal to Grant's chances. Then there are the claims of rival delegations to be disposed of. The discussion of these will make a lively episode in the Convention. Again the manner of voting for candidates is an important matter for consideration. It might make a great difference whether each delegate were allowed to cast his own vote or whether the votes of a state were cast by the chairman of its delegation.

The Anti-Grant men have so far had the advantage. They named Hoor as temporary chairman, and will make him the permanent chairman of the Convention. This gives them a decided superiority. The chairman can, by the power of his position, often turn the scale in a close contest. At the present rate of progress no one need be surprised if the name of the next President of the United States be not announced until next week.

### STOCKTON AND BODIE ROAD.

The San Francisco *Chronicle* estimates the cost of a narrow gauge railroad from Stockton to Bodie at \$15,000 per mile—limit of total cost \$2,000,000—and says:

"Its traffic in a few years, unless Bodie and its surroundings are much overrated, would certainly much exceed the traffic over the Virginia and Reno line. It would tap a mineral region in Nevada, extending over an area of 20,000 square miles, which has for years past been constantly improving, and its way trade through the lumber and timber belt of the Sierra would become immense."

The San Francisco *Stock Report* takes a different view of the project, and expresses it as follows:

"It is possible that the total average cost would not exceed the *Chronicle's* estimate, but when the altitude and snowy character of that portion of the Sierra over which it would have to pass is considered, the figures look small indeed. The Sonora pass is upward of 9,000 feet above the sea and the amount of tunnelling or construction of snow sheds necessary to operate the road successfully in opposition to the Central Pacific, Virginia & Truckee and Carson & Colorado (Bodie extension) will be found to be enormous, if not wholly discouraging."

### NOW WE KNOW ALL ABOUT IT.

The Coroner's inquest on the victims of the Santa Cruz railroad disaster was something of a satire on Coroners' inquests in general. The jury made two reports. The first blamed the Superintendent of the road, the engineer, the brakemen, and all who were responsible for that "sharp curve." The second declares, "further," that "said accident resulted from unforeseen causes and that the same are to you (the jury) unknown." The Coroner concludes his review of the testimony by saying, "if there be blame to be attached to any one or more persons, it should be investigated and determined by the courts."

John F. Alexander is in Reno looking. He will remain here several weeks.

### THE SENATORIAL RACE.

Our esteemed contemporary, the *Gold Hill News*, approves our suggestion regarding the Senatorial contest in Nevada. It yesterday said: "The *News* agrees with the *Gazette* in the proposition to put honest men into the Legislature, and let Tritie, Sharon, Woodburn, Lewis and the rest present their claims upon the party to that Legislature of honest men. It is by no means impossible or improbable, however, that Sharon will not be a candidate, also that Tritie will be the only one in the field when the critical time arrives. The *News* has freely and willingly presented the claims of Mr. Tritie, heretofore, endorsing him as a most excellent and able gentleman well fitted and qualified for the honorable position to which he aspires. The *News* has no objections to Mr. Tritie, but is willing to give all who desire to enter for the Senatorial race a fair and even show, therefore expresses no preference, but will do so at the proper time. There's no hurry just yet."

### EDITORIAL NOTES.

The deepest mining shaft in the world is the Adalbert, in a silver and lead mine in Bohemia. Its vertical depth is a little over 3,280 feet—or a little more than 200 feet deeper than the deepest mine on the Comstock. The deepest bore hole in the world is said to be the artesian spring at Postdam, in Missouri, which reaches a depth of 5500 feet.

A Frenchwoman was arrested in Sacramento the other day for wearing on the street a full ball room costume, consisting of "a dress décolleté at both extremities, as it were." They are very modest in Sacramento. At the fashionable seaside resorts they are not so particular. The wearing of a postage stamp will enable any one to escape arrest at Monterey this summer.

Referring to the recent creation of peers, the London *Truth* observes that "it is not likely that the absurdity of granting hereditary titles will long survive," and adds that while English people often sneer at the bought titles on the Continent, they are, in fact, just as much sold to those who purchase them by expenditure at elections for Parliament.

Patrick Kearney, the Oregon pioneer, who, in 1862, was a passenger on the steamer Golden Gate, has gone to Skagit. He is the man who threw away a bag of gold, the hard earnings of many years missing, to rescue a little girl.

One night last week a man named Walter Bream, while cleaning the line shaft at the Bullion mill in Paradise Valley, was caught by the machinery and wound around the shaft at a fearful rate. He was finally rescued, but in such a mutilated condition that no hope is entertained of his recovery.

A farmer near Healdsburg is building some large fish ponds on his place for the propagation of carp. The water will be supplied from perennial springs.

THE GEM SALOON.

In a few days I will open the

above named saloon in the room adjoining the Workman's Grocery Store, and will keep on hand the best

men, boys and girls make money and

have a few choice pieces of jewelry.

We may have omitted a few things, but then he must have a little time for conversation, you know.

Up in Susanville, says the *Plumas National*, they have a man who is bound to get rich. He is a physician, runs a drug store, makes all kinds of patent medicines, sells ladies' shoes, hose, and underwear, repairs watches and makes jewelry. We may have omitted a few things, but then he must have a little time for conversation, you know.

John F. Alexander is in Reno looking. He will remain here several weeks.

THE SENATORIAL RACE.

Good News by Young Horses.

SAN FRANCISCO, June 1.—Some of

the young horses of the Pacific Blood

Horse Association ran over the Bay

District course yesterday and made

good records. The first race was a

half-mile dash for 2-year-olds, and was

won by Winters' Joe Hooker filly.

Time, 51 $\frac{1}{2}$ . The second race was a

mile and an eighth dash between

Mattie Glenn and Tillie C, which was

won by the former in 1.58 $\frac{1}{2}$ .

The third race was a mile heats.

The first heat was won by Jim Snowden in 1.45.

The second and third were

taken by Jennie B. Time, 1.48 $\frac{1}{2}$

and 1.44 $\frac{1}{2}$  respectively. The second

heat was the fastest ever made on the

Bay District track. The fourth con-

test was a selling race, mile dash, and

was won by Sam Brannan in 1.48.

### A Third Candidate.

From the St. Louis Times.

Dr. Emil Preceptorius, editor of the *Western Post*, in the course of a conversation with a *Times* reporter yesterday, said: "In case of Grant's nomination I believe a third candidate will be placed in the field by our committee of one hundred appointed at the recent Anti-Third-Term Convention; a candidate who would draw so largely from the Republican side that either the third candidate or a Democrat would be elected."

"By this do I understand, Dr. Preceptorius, that you would prefer Democrat to Gen. Grant for President?"

"I would not like to be held responsible," said the Doctor slowly, but with great earnestness, "for either the election of Grant or a Democrat, but would wash my hands in innocence and go for the third man."

### The 16-Ounce Baby.

The 16-ounce boy baby, now ten days old, creates quite an excitement among Oakland ladies, who flock to the house of its parents, at 862 Twentieth street. His legs have already developed a wonderful kicking power, his lungs are well developed and he cries as loudly as any other baby. His appetite is excellent. The happy father is as proud of the physiological wonder as though he had been a pugilist.

His mother is a pretty little blonde, well-known in Oakland.

According to the *Oregonian*, Coos and Curry counties are becoming notorious for the number of divorce cases brought up at each term of court, and the ease with which they are obtained is worthy a much less civilized community. One lawyer has bid as low as \$50 for such cases, and has carried them through with success.

Patrick Kearney, the Oregon pioneer, who, in 1862, was a passenger on the steamer Golden Gate, has gone to Skagit. He is the man who threw away a bag of gold, the hard earnings of many years missing, to rescue a little girl.

One night last week a man named Walter Bream, while cleaning the line shaft at the Bullion mill in Paradise Valley, was caught by the machinery and wound around the shaft at a fearful rate. He was finally rescued, but in such a mutilated condition that no hope is entertained of his recovery.

A farmer near Healdsburg is building some large fish ponds on his place for the propagation of carp. The water will be supplied from perennial springs.

### JOTTINGS.

The District Court will reopen to-morrow for a day, Judge S. D. King presiding.

A great deal of freight is being hauled from Reno to the northern valleys this season.

No arrangement has yet been made between Carson and Reno Clubs for a base ball match.

"Emerald County Bank" is to be the name of Bender & Ticknor's new bank at Candelaria.

The Alerts will play a base ball match on their grounds next Sunday with the "Pintos" of Hufaker's.

Lisle Jamison is local agent for a new and thrilling book, entitled "The Mystery of Love-Making Solved."

Trout, salmon, perch, shrimps, cod and all kinds of salt water fish at McClelland & Simpson's to-morrow morning.

The Jones & Dickey bridge across the Little Truckee river, recently reported as washed away, is still in place.

Judge McKinney of Austin was in town to-day on his way to Carson. He will attend the Grand Lodge of Masons in Virginia on Tuesday.

Wm. Gillispie of the Depot Hotel intends to shortly leave for California. He is generally liked for his obliging and courteous disposition, and lacks the pomposity of the average hotel clerk. The traveling public will miss him.

A youth from the country came to town last evening, entrusted with a dollar to buy something needed at home. Something that he saw in an alley induced him to part with his money, and he went home empty handed, seeking by the way to invent some plausible lie to account for the loss of the money.

Getting a Good Share of Trade.

L. Demers has a growing business in Reno. He is an old and experienced business man, and was at one time a member of the Chicago Board of trade. He lost heavily by fire in Corinne a few years ago. After doing business in Reno for seven months he finds nothing to complain of. He says he realizes that people will buy where they can get goods cheapest, and he sells cheap. His extensive business connections give him unusual advantages as a buyer.

Frogs Eating Bees.

The Lyon County Times says Nevada bees do not suffer much from the miller or moth, these pests to be keepers not being nearly so numerous here as in the East. The worst enemy with which the bees have to contend here is the frog, which will hop on the box if possible, or as near as it can get, and swallow dozens of them as fast as they come out.

Must Join or Quit.

The Enterprise gives publicly to the report that the miners working in the Sutro tunnel have received notice from the Miners' Union that on next Tuesday they must have their cards or quit work.

### BY TELEGRAPH!

#### AT CHICAGO.

#### The Convention Meets and Adjourns Again.

#### The Unit Rule Abrogated in Committee.

#### PLANING AN ANTI-CHINESE PLANK FOR THE PLAT-FORM.

#### Contesting Delegates Admitted from Alabama and Illinois.

#### Figuring on the Chances.

CHICAGO, June 2. Midnight.—There was a long meeting to-night of the Grant delegates and some others of the National delegates, in all about 357. The Grant men claim over 300 on the first ballot, while their antagonists believe it will fall below 200. This estimate is based on the belief that most of the anti-Grant contestants will be admitted, and it is regarded as certain that the Committee on Credentials will report in favor of the admission of the Illinois delegation.

The Blaine men also claim over 300 on the first ballot. Edmunds appears to be growing rapidly, and his friends now claim 50 votes on the first ballot for him. It is reported on good authority that Chairman Cassin, of the Pennsylvania delegation, visited the Indiana headquarters, and on his own responsibility, but claiming to represent most of his delegation, offered to turn the vote of Pennsylvania over in favor of a ticket composed of Edmunds and Harrison. The Indiana delegation did not discuss the matter sincerely, as Harrison is said to object to the plan.

Sherman's friends present an unbroken front, and claim that their candidate will receive over 100 votes on the first ballot, and when the break comes he will be a good general favorite.

There continues to be much leaning towards Washburne as the possible "dark horse," and some quiet work in the same direction is doing for Garfield. The Edmunds men are courting the Washburne supporters by suggesting the latter for the second place on the ticket with their own favorite. Fed Billings is to put Edmunds in nomination.

The Convention Reassembles.

CHICAGO, June 3.—Convention called to order at 11:45. The Committee on Credentials is still in session. It is said they cannot make a report for some time. The Committee on contested seats will not be ready to report before 4 P.M. Conkling moved that the Convention adjourn till 6 P.M. Hall made the point of order that the motion was debatable, and the chair sustained him. The question is now being debated. Hale contended in his speech that the Convention must remain in a state of suspended animation until the committees are ready to report. Conkling followed Hale, claiming that a recess would facilitate the business of the Convention, and that it was not in order to proceed until the Committee on Credentials reported. Conkling's motion was carried.

The Alerts will play a base ball match on their grounds next Sunday with the "Pintos" of Hufaker's.

Lisle Jamison is local agent for a new and thrilling book, entitled "The Mystery of Love-Making Solved."

Trout, salmon, perch, shrimps, cod and all kinds of salt water fish at McClelland & Simpson's to-morrow morning.

The Jones & Dickey bridge across the Little Truckee river, recently reported as washed away, is still in place.

Judge McKinney of Austin was in town to-day on his way to Carson. He will attend the Grand Lodge of Masons in Virginia on Tuesday.

Wm. Gillispie of the Depot Hotel intends to shortly leave for California. He is generally liked for his obliging and courteous disposition, and lacks the pomposity of the average hotel clerk. The traveling public will miss him.

A youth from the country came to town last evening, entrusted with a dollar to buy something needed at home. Something that he saw in an alley induced him to part with his money, and he went home empty handed, seeking by the way to invent some plausible lie to account for the loss of the money.

Getting a Good Share of Trade.

L. Demers has a growing business in Reno. He is an old and experienced business man, and was at one time a member of the Chicago Board of trade. He lost heavily by fire in Corinne a few years ago. After doing business in Reno for seven months he finds nothing to complain of. He says he realizes that people will buy where they can get goods cheapest, and he sells cheap. His extensive business connections give him unusual advantages as a buyer.

Frogs Eating Bees.

The Lyon County Times says Nevada bees do not suffer much from the miller or moth, these pests to be keepers not being nearly so numerous here as in the East. The worst enemy with which the bees have to contend here is the frog, which will hop on the box if possible, or as near as it can get, and swallow dozens of them as fast as they come out.

Who Will Make Nominations.

Jay of Michigan will place Blaine in nomination, Pixley of California will second and Frye of Maine will close. Conkling will nominate Grant. Garfield will nominate Sherman.

Editor Gazette.—Conkling and Seymour run New York. When Seymour is around Tilden is nowhere. Conkling and Seymour are brothers-in-law, and when one wants anything the other lies quiet, and they alternate pretty evenly in their demands. I predict that Grant is not nominated at Chicago, Seymour will be at Cincinnati (or he will dictate the nomination) and that Conkling will remain silent during the campaign and let New York go Democratic.

Garfield will nominate Sherman.
